TOP AWARD FOR MSC

Driving industry improvements with RFID

The management and team at MSC were deservedly delighted this week when they picked up the prestigious "Technical Achievement Award" at the 2006 Hong Kong Awards for Industries Gala dinner and presentation. Supported by the HK SAR Government and organized by Hong Kong Science and Technology Parks Corporation, MSC joined the ranks of some of Hong Kong's most talented businesses who have previously won the award.

Hong Kong's Financial secretary, the Honorable Henry Tang presented the award to MSC, who competed with over one hundred companies for this year's accolade.

Vincent Chan, CEO of MSC was especially proud of the recognition of the judging panel, who stated that **The management team has very good domain knowledge and has successfully applied RFID technology to apparel industry. The patented technology has gained market acceptance rapidly and excelled its competitors. The company has a good technology culture.**

Vincent added that 2006 was an extremely exciting year for MSC. We received global recognition and awards from Governments, our peers in the technology industry, and most importantly, our clients for our achievements & dedication to improving and advancing the apparel and soft goods industry.

About MSC Limited

Founded in 1989, MSC is one of the world's leading solution providers in the apparel sourcing industry. Headquartered in Hong Kong with offices globally, MSC brings the experience of both the requirements of the buyer and the needs of the supplier into a single solutions; making it more efficient for all players along the supply chain to collaborate and streamline its processes.
