Time: 2:15 pm ~ 5:00 pm
Venue: LT-16, CityU

Challenges of Today's Manufacturers: Security, Efficiency and Productivity

Nowadays, manufacturers are facing challenges of:

- Securing access to corporate network
- Delivering business applications/information in the diverse environment
- Managing documents across departments and offices

How to achieve efficiency and productivity in all aspects without compromise to security?

In this seminar, CPCNet, ISL, MSC and Chevalier will introduce a suite of business solutions to optimize application performance with simple ways to secure your business.
