Challenges of Today's Manufacturers: Security, Efficiency and Productivity

Nowadays, manufacturers are facing challenges of:

- *Securing access to corporate network*
- *Delivering business applications/ information in the diverse environment*
- *Managing documents across departments and offices*

How to achieve efficiency and productivity in all aspects without compromise to security?

In this seminar, IBM, CPCNet, Coworkshop, ISL and MSC will introduce a suite of business solutions *to optimize application performance with simple ways to secure your business.*
